

Where we want to go...

We are extremely grateful to all of those who have supported us in our first four months since inception. We want to continue our momentum and stay true to our values. We want to ensure people who are experiencing homelessness can manage their periods with dignity and on their terms. We believe all people deserve a choice in how they manage their periods and we believe together we will eradicate the stigmas related to periods. We hope to grow our service area, create partnerships with community organizations and facilitate awareness presentations for schools and community groups.

Who we are.

What we've been up to.

Where we want to go...

May 2018

Who we are.

Mission

To provide people who are experiencing homelessness in Toronto the opportunity to manage their period in a safe and hygienic way.

Vision

All people have the opportunity to manage their periods while preserving their dignity.

We Value

- and recognize the plight of women and transgender people who experience homelessness
- a person's choice to manage their period on their terms
- the strength, diversity of thought and experience of the people we serve
- the input we receive from people experiencing homelessness as to how we can best serve them
- integrity and transparency in how we operate

What we've been up to.
